## Macon Fair

Last Friday, October 8, was a day much enjoyed by the people of Macon and that vicinity. On that date they met as previously planned and put on a very successful community fair the last of a series of such fairs planned earlier in the year as a part of the program of the farm and home demonstration work in the county.

Superintendents of the various departments as previously elected were livestock, Scott Owen, farm crops, J. W. Matheson; Horticulture, Roy Bobbitt; Poultry, Robt. Poake, Home Economics, Mrs. T. I. Tisdale, assisted by Mrs. James Joel Curd, J. W. Matheson, W. Phillips, Dewitt Boswell, and J. T. Early; Fine arts and flowers, Miss Edwidge Bailey; Relics, Mrs. P. H. Dughey, school exhibits, Miss Etta Cross; and Girl's work, Mrs. Carl Cross.

Each superintendent made effort to arouse interest in his or her department and the result was a splendid exhibit of products, representing practically every phase of farm, home and school life. Something over four hundred entries were made.

Among the interesting thing seen at the fair was a silver tipped snuff box brought years ago from Scotland, 60 years old christening dress, all hand made even to the embroidery ruff, and a complete cotton gin made by a school boy. This gin represented one of Macon's industries and bore the significant sign: "we gin free and charge ten dollars for wrapping."

Cold drinks and cream were sold on the grounds and proceeds were used for expenses of the fair.

Lantern stew and an abundant dinner were served at the lunch hour, at which all were invited to partake.

In the afternoon games and races were enjoyed by the old and young.

The best of the exhibits were then selected and brought to the county fair for Macon's community exhibit.

## An Agreeable Surprise

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief." writes Mrs. James Brown, Clark Mill, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy.

## DO YOU KNOW WHAT IS THE MATTER?

When You Feel Out of Sorts and See Things with a Dull Eye

### LOOK TO YOUR BLOOD

Pale Complexions, Languid Feeling Lowered Vitality, Need More Red Blood. Take Pepto-Mangan

So many people spend week after week feeling down and out. They never stop to think that something really is the matter. They satisfy themselves by saying, "Oh I'm not sick, I'll be all right tomorrow."

And tomorrow comes again and again. Still they feel depressed and fatigued, scarcely able to get around.

If you don't feel like yourself, you are not yourself. If you are weak and pale, your blood needs strengthening. You should know about Pepto-Mangan that famous blood tonic. Physicians recommend it and prescribe it because it contains just the ingredients needed to make red blood. It renews your energy, puts you where you ought to be. Begin with it today. Get the tablets if they will be more convenient to take than the liquid. Both have the same medicinal properties. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the full name, "Gude's Pepto-Mangan" is on the package.

### A Texas Wonder.

The Texas Wonder for kidney and bladder troubles, gravel, diabetes weak and lame back, rheumatism and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.25. One small bottle is two months' treatment and often cures. Send for sworn testimonials. Dr. E. W. Hall, 2925 Olive street, St. Louis, Mo. Send to druggists, adv. if

## EVERYTHING TO GAIN BY WOMAN SUFFRAGE

MEN LOSE NOTHING—they keep their votes.

THE HOME WILL GAIN A VOTE in addition to the one it had before.

THE WIFE WILL GAIN more interests in common with her husband.

THE MOTHER WILL GAIN the power to reduce the high cost of living, to get better schools and recreation places for her children and decent working conditions for her older sons and daughters.

THE CHILDREN WILL GAIN double protection when the father and mother both can vote.

THE FARMER WILL GAIN because farm women will vote for farm interests.

THE STATE WILL GAIN because it will have the service of experts in housekeeping.

GOVERNMENT WILL GAIN because it can use the intelligence of ALL THE PEOPLE instead of only one-half.

## RURAL WOMEN DOING BIG THINGS THROUGH DEMONSTRATION CLUBS

That the general influence of home demonstration work, including both adult and children's divisions can scarcely be overestimated, was an outstanding feature of the program of the homemakers' section of the Middle Tennessee Farmers' Institute which met at Columbia recently. The value of such work was clearly expressed in a paper read before the meeting by Mrs. Lewis A. Bryant of Marshall county.

"In a broad sense," she said, "this work is redirecting our education, filling our hearts with new hope and revealing the possibilities of a higher and better country life in its various social, educational and community activities."

As a representative of the Marshall County Home Demonstration Clubs Mrs. Bryant submitted the following report on the work done in the county during the past year:

"There are ten women's home demonstration clubs and eight boys' and girls' clubs; four of these women's clubs having been organized in new communities this year. These represent fourteen community centers. Twenty regular monthly meetings are being held with these clubs.

"A number of new members have been added to the boys' and girls' clubs and report 415 more chickens raised this year than last.

"The study of foods and the balancing of meals has been taken up in many of the women's clubs. Drying demonstrations have been given and the women have been much interested in this method of food conservation.

"Steam-pressure canning has been one of the chief features in the county, and the number of canners owned now is just double the number of last year, the number now being fourteen.

"The Marshall County Council of Agriculture was organized March 27, 1920. The directors of which have mapped out a program of work planned to fit the needs of this county in improving farm, home and community life. A number of women are members. It is largely thru the various demonstration clubs and community organizations that the Council plans to carry out this program of work.

### Improving Poultry.

"The Marshall County Poultry Association has been organized this year, and with a few but very enthusiastic members, is trying to place the poultry industry on a better plane from a standpoint of both quality and profit.

"Last year's county agricultural fair was a decided success. One community fair was held and one community exhibit was sent to the State Fair. This year a two-day agricultural fair and three community fairs are being planned.

### NUGGETS OF INFORMATION.

The ten greatest inventions of our time, according to the Scientific American, are the electric furnace, the steam turbine, the automobile, moving pictures, wireless telegraphy, the aeroplane, the cyanide process, the linotype machine, the induction motor and electric welding. X-rays, radium, color photography, the Diesel engine, the telephone and the phonograph, it will be noticed, are omitted.

The Junior High School at Grand Rapids, Mich., consisting of pupils of the seventh, eighth and ninth grades, has grown in two years from a school of four hundred and thirty pupils and fifteen teachers to one of eight hundred and fifty-one pupils and thirty-six teachers. More boys and girls have stayed in school under the new system.

In Chicago, a recent count showed that out of 46,750 pieces of first-class mail received on one day, no fewer than 39,930, or 84 per cent, were insufficiently or improperly directed.

Joilet, Ill., aims to get rid of delinquents in its schools by putting the boys too big for their classes into a special class in charge of a man teacher of forceful personality.

In order to furnish high class entertainment to communities in their States, the universities of Wisconsin, Minnesota and North Dakota have banded together for lycium service.

## The County Fair

The eighth annual county fair was held in Somerville Thursday and Friday of last week with a fair degree of success. Due to the depressed condition of business thruout the country caused by rapidly falling cotton prices the exhibits were not as numerous as in former years, tho the quality of the exhibits was good.

The animals entered in the livestock department were as good as seen here in former years. Among the livestock exhibits the dairy cows were by far most numerous, with several good entries of beef breeds.

The poultry department was, perhaps more nearly up to its normal than was any other department of the fair. The entries were numerous and quality better than usual, according to the judge who has placed the poultry awards here for several years.

The community exhibits were fine, Macon winning first place and Warren second place in these exhibits.

The women's department suffered as did the others in numbers, but the quality was there as it has always been, specimens of interest and showing the highest degree of workmanship.

All things considered, the fair was worth far more than it cost and the getting together of many hundred county people for the two days paid amply for every effort. Our people have too few get-together occasions, especially in Somerville, and for two days of the fair the good natured and jovial crowds mingled together and seemed to enjoy the two days fully.

Following is a list of winners, tho they are not official, and some changes may be made when the final list is made up. The public will be notified thru The Falcon when the premium checks are ready and just how they can be secured.

## Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case.

## MANY COUNCILS OF AGRICULTURE FORMED

The county council of agriculture movement seems to have taken a firm footing in Tennessee. Eighteen counties have already perfected permanent organizations and a dozen other counties have temporary organizations which will be made permanent in a short time. Many other counties now have plans on foot to organize. This is indeed significant of the progressive spirit of the farmers of the state, who apparently very keenly appreciate the fact that much can be accomplished thru organized effort. The county councils of agriculture are advocated by the Division of Extension of the University of Tennessee and the workers of the organization are aiding in their formation, the various county agents being especially active in the work. The organizations are starting on a splendid foundation with the idea

## Mrs. F. J. McRee

After an illness which extended over many weary months Mrs. F. J. McRee died at her home in Macon last week, with the members of her family and friends present.

Mrs. McRee was the wife of Hon. F. J. McRee who represented this county in the Legislature two terms and is now a member of the county court. She was a teacher in the county schools for many years and was among the county's most popular teachers. Besides her husband Mrs. McRee is survived by one daughter, and several sisters who live in the Mississippi delta country.

Deceased was a consistent Christian woman and was when well an active worker in church and social affairs of her town and community and in these circles she will be sorely missed, as she will in the family circle where she has lived, loved, and been loved, where the best in life always shows, and where her devotion was ever present.

Burial was in the Macon cemetery where she awaits the resurrection morn, then to meet her maker and her loved ones in eternity.

## Bethlehem Fair

On October 6 The New Bethlehem community held their first community fair. Several months previous to this date, a meeting had been held, and the heads of various departments had been elected, catalogs were later issued, and the fair was the climax of all the effort that had been made by the people of this neighborhood, to stage a successful community fair in order to show their agricultural and home economic lines.

Practically every department was represented, and while the number of entries was not large the quality was excellent.

It was at first decided to bring this exhibit, as a community display, to the county fair but this plan was later abandoned, given up owing to some discommodities. This resolution was made however that another year should find them ready with an exhibit for the county fair.

Mrs. A. H. Sanders acted as judge of the home products and Mr. A. A. Pryor of the farm products and live stock, Blue, red and white ribbons were awarded.

A special feature of the day was a bountiful and well prepared basket dinner.

The afternoon was devoted to seeing the exhibits and to outdoor games and races, in which men, women, and children participated with much enjoyment.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Price Drug Co.

### Leftover Fish Cakes.

Cold boiled potatoes cut in halves lengthwise may be used. Cover with boiling water, add a little salt and let boil rapidly about five minutes, drain and press through a ricer. If the directions be followed this will be equal to fresh boiled potato. Add leftover, cooked fish of any kind, picked into bits. There should be at least half the bulk of the potato to fish; more will do no harm. Add also salt and pepper, half a teaspoonful of each to a pint of material, any leftover drawn butter or white sauce, or, failing this, one or two tablespoonfuls of butter and a little milk. Beat thoroughly. Do not have the mixture too moist. Shape in the hands into flat, round cakes. Dip these on both sides into sifted flour. Fry in a little hot pork or bacon fat until browned on one side, turn and brown on the other.

### Lamb en Casserole.

Cut two pounds of lamb from the shoulder in large cubes, sear them quickly in a hot buttered pan, dip each piece in melted butter or good dripping, dust with salt and pepper and put in a buttered casserole. Put casserole in oven, uncovered, fifteen minutes, add one cup potato balls or cubes, one-half cup carrots cut in dice or sticks, two slices onion, one tomato (or one-half cup canned tomatoes) and stock or water to cover. Cover and cook until meat is tender—about two hours. Add one tablespoonful flour dissolved in one cup stock or broth from lamb trimmings, cook ten minutes, add one tablespoonful butter, dust with paprika and minced parsley and serve in the dish.
